Summary

A BCA graduate with a strong academic background in computer science and interest in the IT industry. Equipped with a solid understanding of data analysis principles and a commitment to delivering high-quality solutions. Committed to continuous improvement and delivering exceptional value to customers through effective communication and collaboration with teams. Eager to leverage my skills to make a meaningful impact in a fast-paced environment.

Skills and abilities

- **Communication and Soft skills:** Excellent interpersonal and communication skills (written and verbal), Proficient in teamwork and collaboration, Strong understanding of analytical and problem-solving abilities.
- **Technical Skills:** Relational Databases and SQL, Microsoft Word, Excel, and PowerPoint, Familiar with Networking Concepts, Data visualization and presentations.
- **Programming Languages:** C/C++, Python

Academic Projects

- **Personal Assistant:** Developed a Personal Assistant designed to enhance productivity by integrating task management, voice commands, and real-time weather updates. Utilized technologies such as Python and its libraries to create a robust and user-friendly experience. This project helped strengthen my programming skills.
- **To-Do List :** Developed a To-Do List application that allows users to create, edit, and delete tasks with ease. The app features a user-friendly interface, task categorization, and deadline reminders to enhance productivity.
- **Movie Recommendation System:** Developed a Movie Recommendation System using Python and libraries such as Pandas, NumPy, and Scikit-learn. The project involved collecting data, preprocessing it to handle missing values. Implemented content-based filtering techniques to generate personalized movie recommendations based on user behavior and movie attributes.

Academic experience

Volunteer

~Jan, 2023 – June, 2023 | Bhopal
